Figure 1 illustrates the experimental design. It shows a sequence of events: a 'Reference' phase where a subject sees a bar chart of 10 bars (5 blue, 5 red) and a 'Money' phase where a subject sees a bar chart of 10 bars (5 blue, 5 red). The subject is asked to 'Choose' between the two phases. The 'Reference' phase is labeled 'in' and the 'Money' phase is labeled 'out'.
