1. **Identify the main components of the system.** The system consists of a **client** and a **server**. The client is responsible for sending requests to the server, and the server is responsible for processing these requests and returning responses.

Diagram illustrating the flow of funds between a bank and a customer using a T-account structure:

Account	Summary
Deposits	Balance
Withdrawals	Deposits
Withdrawals	Withdrawals
Paid	
	Balance

The diagram shows the flow of funds between the bank and the customer. The T-account structure is used to record transactions. The left side (Account) records deposits and withdrawals. The right side (Summary) records the balance, deposits, withdrawals, and payments. Arrows indicate the direction of the flow: from the bank to the customer (Deposits) and from the customer to the bank (Withdrawals).
